NOTICE OF CRITICAL STATUS

This is to inform you that on March 30, 2012 the plan actuary certified to the U.S. Department of the Treasury, and also to the plan sponsor, that the plan is in critical status for the plan year beginning January 1, 2012. Federal law requires that you receive this notice.

Critical Status

The plan is considered to be in critical status because it has funding or liquidity problems, or both. More specifically, the plan's actuary determined that the plan has an accumulated funding deficiency for the current plan year without consideration of an extension of certain amortized liabilities.

Rehabilitation Plan

Federal law requires pension plans in critical status to adopt a rehabilitation plan aimed at restoring the financial health of the plan. This is the 5th year the plan has been in critical status. The law permits pension plans to reduce, or even eliminate, benefits called "adjustable benefits" as part of a rehabilitation plan. On April 25, 2008, you were notified that the plan may reduce or eliminate adjustable benefits and that the plan is not permitted to pay lump sum benefits (or any other payment in excess of the monthly amount paid under a single life annuity) while it is in critical status. On October 20, 2008, the Trustees adopted a Rehabilitation Plan and on December 15, 2008, you were notified of certain benefit reductions adopted in that plan. If the trustees of the plan determine that further benefit reductions are necessary, you will receive a separate notice in the future identifying and explaining the effect of those reductions. Any reduction of adjustable benefits (other than a repeal of a recent benefit increase, as described below) will not reduce the level of a participant's basic benefit payable at normal retirement. In addition, the reductions may only apply to participants and beneficiaries whose benefit commencement date is on or after April 25, 2008.

Adjustable Benefits

The plan offers the following adjustable benefits which may be reduced or eliminated as part of any rehabilitation plan the pension plan may adopt:

- Post-retirement death benefits
(currently \$10 times a participant's accrued months of credited service);
- Pre-retirement lump sum death benefits
(currently \$10 times a participant's accrued months of credited service);
- One hundred-twenty-month payment guarantees;
- Disability benefits (if not yet in pay status);
- Early retirement benefit (a benefit which is not actuarially reduced for commencement prior to normal retirement age) or other retirement-type subsidy;
- Benefit payment options other than a qualified joint-and survivor annuity (QJSA);
- Recent benefit increases (i.e., occurring in past 5 years);

Employer Surcharge

While a Fund is in critical status, the law requires that all contributing employers either comply with one of the contribution increase schedules of the Rehabilitation Plan or pay to the Pension Fund a surcharge to help correct the Pension Fund's financial situation. The amount of the surcharge is equal to a percentage of the amount an employer is otherwise required to contribute to the plan under the applicable collective bargaining agreement. A 10% surcharge is applicable for this plan year and for each succeeding year while the Fund is in critical status until such time as one of the contribution increase schedules is adopted.
