Notice of Endangered Status For

Teamsters Local 639 – Employers Pension Trust

Beginning on January 1, 2008, the Pension Protection Act of 2006 (the “PPA”) imposes new rules for defined benefit plans such as the Teamsters Local 639 – Employers Pension Trust (the “Plan” or “Fund”). In addition to new reporting and disclosure requirements, the PPA defines several new statuses to describe the financial condition of a pension plan -- “endangered,” “seriously endangered,” and “critical” status. Federal law requires that this notice be provided to participants in a plan which is in one of these statuses.

Endangered Status

This is to inform you that on March 31, 2009, the Plan’s actuary certified to the U.S. Department of the Treasury, and also to the Board of Trustees, that the Plan is in endangered status for the plan year beginning January 1, 2009. The Plan is considered to be in “endangered” status because it has funding problems. More specifically, the Plan’s actuary determined that the Plan is not in “critical” status but it is projected to not meet federal funding requirements within the next six years.

Funding Improvement Plan

Federal law requires the Trustees of plans in endangered status to adopt a funding improvement plan aimed at restoring the financial health of the plan. Because this is the first year that the Fund has been in endangered status, the funding improvement plan must be adopted no later than November 27, 2009.
