Endangered Status

A Plan is considered to be in endangered status when its assets are less than 80% of its liabilities and/or the plan is projected to have a funding deficiency within the next seven years as described in Section 432 of the Internal Revenue Code. While the actuary for the Rockford Pipe Trades Industry Pension Fund has certified that the Plan is not projected to have a funding deficiency within the next seven years, the Pension Fund's assets are less than 80% of its projected liabilities. Therefore, the Pension Fund is in Endangered Status (Yellow Zone).

Federal law requires pension plans in endangered status to adopt a Funding Improvement Plan aimed at improving the financial health of the Plan. In compliance with law, the Plan Trustees developed the following updated Funding Improvement Plan that is to raise the funding level of the Plan over the funding improvement period:
