Notice of Endangered Status
For
Perishable Food Industry Pension Fund

EBSA/PUBLIC DISCLOSURE
2012 MAY -2 PM 4:18

This is to inform you that on March 28, 2012 the plan actuary certified to the U.S. Department of Treasury and the plan sponsor that the plan is in endangered status for the plan year beginning January 1, 2012. Federal law requires that you receive this notice.

Endangered Status

The plan is considered to be in endangered status because it has funding problems. More specifically, the plan's actuary determined that the plan's funded percentage was 77.7% as of January 1, 2012. The funded percentage is a measure of plan liabilities compared to plan assets.

Funding Improvement Plan

Federal law requires pension plans in endangered status to adopt a funding improvement plan aimed at restoring the financial health of the plan.

The funding improvement plan must be adopted by the trustees no later than November 25, 2012. The funding improvement plan must project that the Plan will not have an accumulated funding deficiency during the 10-year funding improvement period and that the funded ratio will increase by at least 33% to a minimum of 85.1% by the end of the funding improvement period. The funding improvement period is the 10-year period beginning January 1, 2014.
