

**Notice of Endangered Status
for
International Association of Heat & Frost Insulators and Allied Workers
Local No. 40 Pension Plan
EIN: 14-6033598/ PN: 001**

This is to inform you that on September 28, 2014, the plan actuary certified to the U.S. Department of the Treasury, and also to the Plan sponsor, that the Plan is in Endangered Status for the Plan year beginning July 1, 2014. Federal law requires that you receive this notice.

Endangered Status

A Plan is considered to be in Endangered Status when its assets are less than 80% of its liabilities and/or the plan is projected to have a funding deficiency within the next seven years as described in Section 432 of the Internal Revenue Code. While the actuary for the Heat and Frost Insulators Allied Workers Local 40 Benefit Funds has certified that the Plan is not projected to have a funding deficiency within the next seven years, the Pension Fund's assets are less than 80% of its projected liabilities. Therefore, this is the fourth year the Pension Plan is in Endangered Status (Yellow Zone).

Funding Improvement Plan

Federal law requires pension plans in Endangered Status to adopt a Funding Improvement Plan aimed at restoring the financial health of the plan. The Funding Improvement Plan must include actions that are reasonably likely to achieve a 1/3 reduction in the underfunded liability over a period of 10 years. The law permits pension plans to reduce benefits earned in future years as part of a Funding Improvement Plan.

The funding improvement plan adopted by the trustees called for a contribution rate increase from \$9.05 per hour to \$9.34 per hour. The Plan's actuary has determined no other changes to benefits are necessary. If the Trustees of the plan determine that benefit reductions are necessary, you will receive a separate notice in the future identifying and explaining the effect of those reductions.

Where to Get More Information
