Subject: Mutual Fund Fess and Expenses

Dear Sirs:

I have for years been concerned by not being able to know exactly how much I am being charged, both in exact dollars and as a percentage of my account, for my mutual fund holdings.

I hope that you will be able to enact more consumer friendly reporting requirements of mutual funds, ETF's, and any other financial instruments that are held in 401(K)'s.

I think that a lot of financial institutions hide behind a wall of confusion, that they present to retirement fund holders, for their own benefit.
