Subject: Comment in support of RIN 1210-AB30

April 26, 2010

The brain is just another organ that can get sick or injured, just like a kidney. There should be no distinction in insurance coverage for treatment.

I am writing to support the interim final rule under the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (RIN 1210-AB30).

I support the strong rule that would forbid insurance companies from charging higher copayments, deductibles, and other out-of-pocket expenses for mental health treatment than they would for other physical health care. Thank you for ensuring that mental health care and physical health care coverage are included in a single deductible.

Sincerely,
