Dear Sirs,

I'am very capable of managing my own investments and my 401k has performed rather well over the past 20+ years. I would like to thank the Obama administration for totally ruining my employer based healthcare which costs me 6 times as much now than 5 years ago, has higher deductibles and fewer choices. Now it seems you want to do the same to my retirement account, limit my choices and basically tell me what I can and cannot do with my own retirement investments. I have little faith in the current administration when it comes to my 401k after Solyndra and other wasteful investments of our tax dollars. Please don't mess up my 401k like you did my healthcare.

Thank You, Todd Wagner
Las Vegas, NV
