General Comment

I do not want the government of the USA to confiscate my retirement account! I remember when IRAs first started and elders in my family said that if we did start saving for our own future, the government would figure out a way to take your money.

I guess they were right!

I started saving for retirement in the 1990s. I am now 51 and do not need the government to do it for me.

Keep your hands off my retirement!

I have been through the ringer over my years. I have seen the stock market blow up and the housing bubble burst. I have seen too much to think that my government can manage my retirement!

Social Security will run out of money if they don't fix it. How in the world will the government manage my money if they cannot manage Social Security?

I think this is an overreach by our government, to take over the trillions of dollars that hard-working Americans have saved themselves! I have gone without and saved instead of living the high-life.

Keep your hands off my RETIREMENT!
