Subject: RIN 1210-AB32

I am greatly concerned that the proposed rule would prohibit me from using options in my IRA to manage risk in this account.

In light of recent volatility in the financial markets, it would be harmful to prevent IRA participants from using listed options to reduce risk and preserve their retirement assets.

Please ensure that the final rule continues to allow IRA participants to use listed options to protect their assets and ultimately their ability to retire with peace of mind.

Respectfully submitted,

Charles K Barra
