Subject: Patient Protection and Affordable Care Act definition of "religious employer"
Date: Sunday, August 07, 2011 8:12:48 PM

This is to express my opposition to the definition of "religious employer" as as too narrow as it negates true conscience protection that has long been protected. The right to follow conscience is one of the unalienable Rights of the Declaration of Independence, given by God and not by the government.
