The current definition of religious employer does not provide true conscience protection for those committed to preserving life. Health care plans should not be forced to violate the moral and religious convictions of providers or employees in order to participate in the health care system. Requiring such an unacceptable demand threatens both universal access to health care and religious freedom of conscience. I am also protesting your mandate that requires insurances to provide many and varied ways to MURDER an innocent pre-born life and rip it from the womb of its mother. The best preventative medicine is ABSTINANCE and it costs NOTHING!

Respect the sanctity of Life!
