Subject: STOP Including contraception abortion and sterilization
Date: Wednesday, August 10, 2011 11:47:50 AM

To Whom this may concern;

We are asking that the HHS stop including abortion, sterilization and contraception into the health care plans. The government cannot even manage itself – let alone determine the value of human life and the dignity of the unborn. Pregnancy is not a disease!!!!

You are, once again, using our hard earned tax dollars (we pay for your jobs) to run your own curriculum and desires. STAY OUT of managing human life at its smallest and most delicate level.

Marcia
