Subject: The right to choose is the woman's not her employers!
Date: Wednesday, August 10, 2011 6:00:19 PM

Dear Decision Maker,

It is every woman's individual choice whether she wants to use contraception or not. We cannot allow women to be denied the ability to obtain coverage based on the employer especially in these tough economic times where moving to another job because of inadequate health coverage is simply not an option. Please do the right thing and reject any exemptions for "religious employers."

Thank you,

Luke
