Subject: Highly commend ruling for contraception without copays! Nix religious exemption!
Date: Saturday, August 13, 2011 12:50:39 AM

Free contraception is long overdue (esp. for low income women who have the most children & are least able to afford them & less access to health care), but the religious exemption is harmful for women's health/entity rights in favor of corporations! And is totally [REDACTED]! Remember the separation of state & religion!

Remember, you work For Citizens, Not corporations!!!

I strongly urge you to Ensure that All women have access to quality preventive care by Rejecting (totally!) the proposed religious refusal exemptions provision!

Your attention to this most urgent matter would be much appreciated by all present & future generations.

Thank you
