***The current definition of religious employer does not provide true conscience protection for those committed to preserving life.**

***Healthcare plans should not be forced to violate the moral and religious convictions of providers or employees in order to participate in the health care system.**

***Requiring such an unacceptable demand threatens both universal access to health care and religious freedom of conscience.**

**Any so-called health care plan should improve life,
& strengthen available services -**

***not hinder or shut down services - is this what you are attempting to do -**

shut down any faith-based health care services?

***We absolutely do NOT agree with this!**
