---

Hi,

I am writing today to ask that you please consider upholding the freedom of healthcare providers & pharmacies to provide the services they feel are healthiest for their patients/clients as well as their communities.

Abortions and certain contraceptives, such as the "abortion pill," will be available in many places for those who would like to use them. We should not force healthcare providers to sell things they feel are damaging or harmful - any more than we should require grocery store chains to provide a certain foods.

Those who want those provisions still have a choice: go to an alternative provider. Their freedom is in tact; please make sure the freedom of healthcare providers remain protected as well.

Thank you for taking the time to read this message. I am sure you will sincerely consider what is honorable and just.

Melissa Brawner  
Benton, AR

Sincerely,  
Melissa Brawner
