To Whom It May Concern:

I am demanding in the strongest way possible that you pull the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. This is typical progressive, liberal, heavy-handed government control. If not, at least expand conscience protections for any persons or organizations that have moral or religious objections. I absolutely oppose the government forcing free insurance coverage on Americans especially for drugs that can induce an abortion.

Please, let's not turn this country into a new Soviet Union or a Communist China. Protect the conscience rights of insurers, providers and people who object to being forced by an over-zealous federal government to subsidize contraceptives and sterilization services, especially when some of these drugs can take the life of unborn children. No Americans should be forced by the federal government to subsidize services they object to.

Sincerely,  
Jonathan Oaks
