Subject: Don't deny contraceptive coverage to any woman!
Date: Friday, September 23, 2011 11:23:31 AM

Preventive care keeps women healthy! Requiring insurers to cover preventive health care like contraception, breast feeding support and screening for domestic violence and HIV -- without charging co-pays -- makes these services affordable for more women. Most important, it helps women stay healthy.

Employers should not be allowed to deny a woman this coverage. Medical experts agree that this preventive health care is necessary for all women and that contraception is preventive care. Religious employers should not be given the power to leave contraceptive coverage out of their insurance plans because it will exclude some women from getting the care they need to be healthy, have healthy pregnancies, and have healthy babies. Let a woman make her own decision. She knows what's best for her body, not her bosses!

Please remove the proposed religious employer refusal provision from your Women's Preventive Services rule.
