General Comment

Re: Employee Benefits Security Administration, RIN 1210-AB85. My small business, and our 25+- employees, desperately need to have the ability to purchase affordable group health insurance. I believe the best way to do that is by changing the definition of "employer" to allow inclusion of associations and/or groups, and also allowing employers to purchase group health plans across state lines. This will entice more insurance companies to get into the market, and make those in the market more competitive. Thank you.
