Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-1062
Comment on FR Doc # 2020-13705

Submitter Information

Name: Max Trapp

General Comment

I am FOR the proposed rule RIN 1210-AB95, which requires private pension fund managers who are under ERISA, to act with a singular focus... Returns on investments for pensioners and beneficiaries, NOT environmental, social and governance (ESG) investing. I have investments and need return on investment, not environmental, social and governance investing. This is the only right way to invest.
