Subject: Regarding RIN 1210-AB33

To whomsoever may be gathering opinions:

Judging from your past performance in money management, I *vehemently oppose* the idea of you being anywhere near my 401K or any other retirement income I might manage to stash away for myself. This is a socialist means to grab more of my hard earned money and give it to someone who didn't work for it.

Thanks, but no thanks
