**Subject:** Comments regarding RIN 1210-AB33

To whom it may concern:

I wanted to comment on the news regarding the Dept of Treasury and Labor's plan to force or compel the conversion of all or some of our 401K and IRAs into fixed annuities. This would be a horrible decision. You know it, I know it, and most people know it.

You think that the healthcare reform raised a lot of ruckus? Once this becomes known to the general public, the protests and demonstrations over healthcare will pale in comparison to this.

**Please, stay the hell away from my money!**
