General Comment

It is not the function of government to choose winners and losers in the business world. The government cannot and should not interfere with the free market of competition among rival companies. Government must stay out of business and fair competition. Government is wholly unqualified to make the kinds of determinations that will arise if this legislation is passed. I urge you in the strongest manner to oppose the adoptio of legislation that will directly and indirectly affect the majority of Americans 401k and IRA savings plans. These plans are vital to millions of Americans. These plans are not broken. Do not attempt to "fix" them or "weaponize" them against politial rivals.
