General Comment

The money that I and/or my employer invested in a retirement plan or 401K for MY future should ONLY be invested in funds that show a projection of growth of MY funds. Woke corporations have no business having access to my retirement unless they can provide the best financial return to ME. Equity is an illusion not based in reality and no one should be investing my savings in Woke/Equity anything. Please ensure that fund managers continue to function by investing in the most financially profitable return to me for my investment. Anything less is unacceptable and frankly criminal.
