## General Comment

The Federal government needs to STAY OUT of private investing funds, and where they choose to invest their clients' money! Nothing is more un-American than a biased, Marxist agenda-driven, illegitimate government trying to pick winners & losers in the business sector!

Just for good measure, trying to force private investing firms to put money into Woke companies is a STUPID move, as most red-blooded Americans will stop doing business with any company they discover has adopted a despicably hateful Woke attitude! Throw your own money away on a failing company if you so desire, but you have NO RIGHT to tell investing firms how to invest Americans' money!! Everyone in the whole dang world knows you have dictatorial aspirations, but you're not impressing or fooling ANYBODY!!
