

POLICY GUIDANCE: Defining “Job Attached”

- Page 15 of the FOA states “Upon successful separation from the up to 12-month certificate program, the students should secure a job, enter an apprenticeship program, or join the Armed Services. Some students may, in the alternative, continue enrollment or transfer to another institution to pursue an associate or four-year degree. The goal is to have students “job attached” by the time they separate from the training portion of the program.”
- For the purposes of this FOA, grantees should interpret the language “job attached” to mean the following options for participants after successful completion of the up to 12-month certificate training program - 1) secure a job, 2) enter an apprenticeship, 3) continue enrollment or transfer to pursue an associate or four-year degree, or 4) join the military.
