

U.S. Department of Labor
Fiscal Year 2020
Service Contract Inventory
Plan for Analysis

As the Department of Labor (DOL) prepares to perform its Fiscal Year (FY) 2020 service contract inventory (SCI) plan for analysis, we will incorporate lessons learned from the FY 2019 inventory and apply them to the upcoming inventory.

We will develop a basic inventory in accordance with the Office of Management and Budget (OMB) guidance using Federal Procurement Data System-Next Generation (FPDS-NG) data to address requirements consistent with the Consolidated Appropriations Act. We will also collect data through interviews in order to gather supplemental contract data in response to the criteria required by Section 743.

DOL Special Interest Categories

| Product and Service Codes (PSC) | PSC Description | FY 2020 Spend | # of Contracts |
|--|---|----------------------|-----------------------|
| D318 | IT AND TELECOM- INTEGRATED HARDWARE/SOFTWARE/SERVICES SOLUTIONS, PREDOMINANTLY SERVICES | \$241,763,829.15 | 41 |
| R499 | SUPPORT- PROFESSIONAL: OTHER | \$253,903,450.58 | 79 |
| R408 | SUPPORT- PROFESSIONAL: PROGRAM MANAGEMENT/SUPPORT | \$143,136,944.35 | 15 |

We will take the following analytical steps:

- Develop selection criteria to identify contracts for in-depth review. Based on the criteria identified within the Consolidated Appropriations Act, we will prioritize its selection of contracts for further review in the following order:
 - Potential for inherently governmental performance by contractors;
 - Contracts providing services classified as special interest functions; and
 - Contracts that do not include special interest functions, but were awarded on a non-competitive basis, considered high risk/high spending or meet any one of the remaining designated criteria.
