

# Reemployment Services and Eligibility Assessments (RESEA): Evidence and Evaluation Resources List, April 2022

States participating in the RESEA program use evaluation evidence to continually improve their RESEA programs. This document lists an array of resources that states can draw on to support their efforts to grow their capacity, to use existing evaluation evidence, and to develop new evidence. The list is organized by resource type. Some resources are narrowly targeted to a single topic while others cover a multitude of topics. The Topical Index below can help quickly identify the resources that are most relevant states' needs. Summaries and links to individual resources are hyperlinked. ## Sources to find existing research evidence

- E1) **Clearinghouse for Labor Evaluation and Research (CLEAR)** is the U.S. Department of Labor's central and trusted source of evidence on labor-related interventions and innovations (<https://clear.dol.gov/>). CLEAR conducts comprehensive, transparent evidence reviews across various labor topics, and makes them accessible to inform practitioner and policymaker decisions. CLEAR has many resources that will be useful to states implementing and building evidence about RESEA programs; these specific resources are linked to throughout this document. You can also search across CLEAR's database of over 1100 studies at: <https://clear.dol.gov/study-database>.
- E2) **CLEAR's RESEA page:** This page provides CLEAR's ratings of reemployment interventions relevant to RESEA and links to studies of interventions designed to promote faster reemployment of unemployment insurance (UI) claimants. <https://clear.dol.gov/reemployment-services-and-eligibility-assessments-resea>
- E3) **CLEAR's Job Search Assistance topic area:** This topic area includes reviews of studies examining the effectiveness of job search assistance interventions which aim to improve participants' employment and earnings outcomes. <https://clear.dol.gov/topic-area/job-search-assistance>
- E4) The **Pathways to Work Evidence Clearinghouse** systematically assesses evidence of the effectiveness of interventions designed to help low-income job seekers succeed in the labor market. ### **About DOL's RESEA Evidence Building and Implementation Study**

In 2018, the Department of Labor's Chief Evaluation Office (CEO), in coordination with the Employment and Training Administration (ETA), contracted with Abt Associates and its partners, the Urban Institute, Capital Research Corporation (CRC), and the National Association of State Workforce Agencies (NASWA), to develop strategies to support RESEA evidence requirements contained in Section 30206 of the Bipartisan Budget Act of 2018, Public Law 115-123, enacting new Section 306 of the Social Security Act.

One of the major goals of the project is to provide evaluation technical assistance to states to build their technical capacity to meet the requirements of the legislation if they operate an RESEA program. The RESEA Evaluation Toolkit and webinars described in this document, among other resources such as this tip sheet, are part of the project's evaluation technical assistance. For more information on this study, including study reports and briefs, visit CEO's Current Study's webpage at:
