

## Comment Period Extension and Hearing Notice for Proposed Amendment to Prohibited Transaction Class Exemption 84-14 (the QPAM Exemption)

There is an old saying: Don't do the crime if you can't Do the time  
(<https://www.urbandictionary.com/define.php?term=Don%27t+do+the+crime%2C+if+you+can%27t+do+the+time.>).

This means no "Get out of Jail Free" cards!!! This is not the game Monopoly. Any marketplace gaming or manipulation to gain an unfair advantage is a CRIME and deserves no exemption. Fraud is the worst Crime against a free, fair and open market. Whether Fraud occurs via price manipulations, Dark pools, front running orders ahead of others, etc. . . all are types of manipulations & Fraud.

All are crimes but the biggest crime is selling something you do not have and/or failing to deliver (FTD). Naked Short selling is pure fraud and any firm involved and knowingly supporting this fraudulent, criminal activity deserves NO EXEMPTION and should be held liable to the maximum extent of the law with triple damages at a minimum.

Moreover, the SEC's role is to maintain a free open and fair marketplace and look out for investors so as to strengthen the foundation and economic pillars of the US economy through investment in companies that can grow & prosper. Companies that grow & prosper make a country's economy grow & prosper.

Thus activities that hinder this or crimes & fraud that destroys values is akin to [redacted]. The US Constitution has set out clear sentencing with no exemption for the crime of [redacted] including [redacted] for all to see. Thus as a fellow American and Patriot, I kindly ask the SEC to not grant exemptions to criminals & [redacted].
