

Worker Health Protection Program

Tiffany Martin

Outreach Coordinator

Worker Health Protection Program

Barry Commoner Center for Health and the Environment
Queens College, City University of New York

Worker Health Protection Program (WHPP)

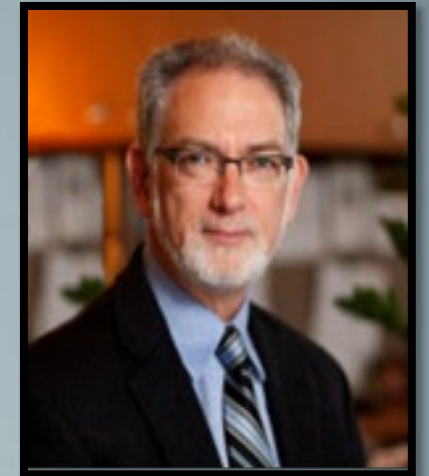

Who we are

- DOE funded Former Worker Program since 1999, screening employees of 12 DOE sites
- Managed by Barry Commoner Center for Health and the Environment, Queens College, City University of New York (CUNY)
- Our partners:
 - Atomic Trades and Labor Council (ATLC)
 - United Steel Workers (USW)

Dr. Steven Markowitz, MD, DrPH

- Principal Investigator & Project Director since 1998
- Chair of DOL Advisory Board on Toxic Substances and Worker Health

Garry Whitley and Ed Mee

- ATLC Outreach Coordinators

John Steward, Billy Edington, Dennis Pennington

- K25 Outreach Coordinators

Worker Health Protection Program (WHPP)

X-10/Y-12/K-25 Site Screening

- Screenings may include: physical exam, chest x-ray with b-read, blood test, breathing test, beryllium test, urinalysis, and hearing test.
- Participants at the highest risk of lung cancer (based on age, work history, and smoking history) are invited to receive Low Dose CT Scans from the WHPP Early Lung Cancer Detection Program (ELCD)

Program Details:

- Open to former X-10/Y-12/K-25 workers (and current K-25 workers) with at least 30 days in a non-building trade.
- X-10/Y-12/K-25 participants are eligible for rescreen examinations every three years.
- Screenings are held at Netgain in Oak Ridge, TN, Summit Medical Group in Knoxville, TN and University of Tennessee Medical Center in Knoxville, TN.

What we've done in Tennessee:

Former workers screened: ATLC= 6,880 / K25= 4,231

Exams (including re-screens): ATLC= 16,098 /

K25=10,136

Former workers screened for lung cancer: 4,301

Low-dose CT scans completed: ATLC/K25= 23,013

Worker Health Protection Program (WHPP)
