Notification to:

OWCP

Advisory Board on Toxic Substances and Worker Health

Division of Energy Employees Occupational Illness Compensation (DEEOIC)

Dear Advisory Board:

I have been assisting former Department of Energy employees for the last several years under the DEEOIC program as an Authorized Representative. I would like to have the ability to speak to the advisory board on 3 topics.

1. When claims are sent to a Contract Medical Consultant (CMC)
2. Exposure evidence gained through Forms EE-3 and EE-4, Occupational History Interview, and claimant affidavits.
3. Inclusion of certain toxins in the Site Exposure Matrix with known links to occupational illnesses.

I am requesting 7 minutes to make public comments on these topics

Sincerely,

Tyler J. Bailey

President, Southwest Nuclear Advocates
