

Work Processes	Labor Category	Toxic Material
	Deactivation and/or Decommissioning (Safe Shutdown)	
Deactivation - Defined as "The process of placing a formerly active processing facility in a safe and stable condition until it can be decommissioned or dismantled"		
Decommissioning - Defined as "The process of removing a facility from operation, followed by decontamination, entombment, or conversion to another use"		
<u>Typical Work Processes - Use or combine as appropriate</u>	Typical Labor Categories For Typical Work Processes	Note: Legacy contaminants in equipment or structures usually also apply
Asbestos abatement	Remediation Worker	Asbestos
Deactivation/Decommissioning-Asbestos abatement	Remediation Worker	
Deactivation/Decommissioning-Safe shutdown activities	Remediation Worker	
Deactivation/Decommissioning-Safe shutdown and facility isolation	Mechanic/Remediation Worker	
Deactivation/Decommissioning-Facility electrical isolation	Electrician	
Deactivation/Decommissioning-Facility water/sewage isolation	Pipefitter/Plumber	
Deactivation/Decommissioning-Facility gas isolation	Pipefitter/Plumber	
Deactivation/Decommissioning-Drain closures (may also be part of demolition)	Pipefitter/Plumber	
Deactivation/Decommissioning-Equipment removal (may also be part of Dismantlement and/or Demolition)	Remediation Worker/Mechanic	
	HVAC Worker	<u>Select from appropriate Generic Profile</u>
	Sheet Metal Worker	<u>Select from appropriate Generic Profile</u>
	Welder/Torch Cutter	<u>Select from appropriate Generic Profile</u>
Construction (all sites)	As appropriate	
Deactivation/Decommissioning-Facility electrical isolation	Electrician	1,1,1-Trichloroethane
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Asbestos
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Borosilicate

Deactivation/Decommissioning-Facility electrical isolation	Electrician	Chlorodiphenyl
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Dichloromethane
Deactivation/Decommissioning-Facility electrical isolation	Electrician	flux removers (generic)
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Mercury
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Mineral oil
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Petroleum oils
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Polydimethylsiloxane
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Soldering fumes
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Soldering fluxes (generic)
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Synthetic vitreous fibers
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Tetrachloroethylene
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Trichloroethylene
Deactivation/Decommissioning-Facility electrical isolation	Electrician	Trichlorotrifluoroethane
Clean up equipment with solvents	Electrician	
Deactivation/Decommissioning-Equipment removal	Mechanic	Acetone
Deactivation/Decommissioning-Equipment removal	Mechanic	Aluminum
Deactivation/Decommissioning-Equipment removal	Mechanic	Aluminum oxide
Deactivation/Decommissioning-Equipment removal	Mechanic	Anti-seize agents (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Asbestos
Deactivation/Decommissioning-Equipment removal	Mechanic	Carbon steel
Deactivation/Decommissioning-Equipment removal	Mechanic	Cement
Deactivation/Decommissioning-Equipment removal	Mechanic	Distillates, petroleum, hydrotreated heavy naphthenic
Deactivation/Decommissioning-Equipment removal	Mechanic	Distillates, petroleum, solvent-dewaxed heavy paraffinic
Deactivation/Decommissioning-Equipment removal	Mechanic	Gasket removers (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Gasket sealants (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Gear oils (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Grease (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Hydraulic fluid/oil (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Mineral oil
Deactivation/Decommissioning-Equipment removal	Mechanic	Multi-purpose spray lubricant (generic)

Deactivation/Decommissioning-Equipment removal	Mechanic	Penetrating oil (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Petroleum oils
Deactivation/Decommissioning-Equipment removal	Mechanic	Pump oil (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Silicon carbide
Deactivation/Decommissioning-Equipment removal	Mechanic	Silicone lubricants (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Stainless steel
Deactivation/Decommissioning-Equipment removal	Mechanic	Stoddard solvent
Deactivation/Decommissioning-Equipment removal	Mechanic	Tap cutting fluids (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Tetrachloroethylene
Deactivation/Decommissioning-Equipment removal	Mechanic	Threadlockers (generic)
Deactivation/Decommissioning-Equipment removal	Mechanic	Trichloroethylene
Clean up equipment with solvents	Mechanic	
Degrease metal	Mechanic	
Use abrasives containing silica or silicon carbide	Mechanic	
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Acetone
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Anti-seize agents (generic)
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Asbestos
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Asphalt
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Borosilicate
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Carbon steel
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Copper
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Dichloromethane
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	flux removers (generic)
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Gasoline
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Lead
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Methyl ethyl ketone
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Mineral oil
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Naphtha
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Nickel
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Penetrating oil (generic)
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Plastic pipe cleaners, primers and cements (generic)

Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Soldering fluxes (generic)
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Soldering fumes
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Stainless steel
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Stoddard solvent
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Synthetic vitreous fibers
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Tap cutting fluids (generic)
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Tetrachloroethylene
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Threadlockers (generic)
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Titanium
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Trichloroethylene
Deactivation/Decommissioning-Facility water/sewage/gas/drain isolations	Pipefitter/Plumber	Turpentine
	Decontamination (may be combined with Deactivation and/or Decommissioning at certain Sites)	
Decontamination - Defined as “The The removal of hazardous material (typically radioactive or chemical material) from facilities, soil, or equipment by washing, chemical action, mechanical cleaning, or other techniques”		
Typical Generic Profiles	Typical Labor Categories	
Decontamination activities	Technician, Decontamination <u>or</u>	Aluminum nitrate
Decontamination activities	Laborer, <u>and/or</u>	Ascorbic acid
Decontamination activities	Remediation Worker	Ceric nitrate
Decontamination activities		Cerium III hydroxide
Decontamination activities		Citric acid
Decontamination activities		Citrus solution cleaners (generic)
Decontamination activities		Diethylene glycol monohexyl ether
Decontamination activities		Ethylenediaminetetraacetic acid
Decontamination activities		Ferrous sulfate
Decontamination activities		General purpose cleaners (generic)
Decontamination activities		Hydrochloric acid

Decontamination activities		Hydrofluoric acid
Decontamination activities		Hydrogen peroxide
Decontamination activities		Iron II hydroxide
Decontamination activities		Iron III hydroxide
Decontamination activities		Nitric acid
Decontamination activities		Oxalic acid
Decontamination activities		Phosphoric acid
Decontamination activities		Potassium permanganate
Decontamination activities		Radiological decontamination solutions (generic)
Decontamination activities		Sodium carbonate
Decontamination activities		Sodium hydroxide
Decontamination activities		Sodium nitrate
Decontamination activities		Sodium sulfate
Decontamination activities		Tartaric acid
Decontamination activities		Tetrachloroethylene
Decontamination activities		Tetrafluoroboric acid
Clean up equipment with solvents		
Abrasives blasting	Technician, Decontamination <u>or</u>	Calcium pyrophosphate
Abrasives blasting	Laborer, <u>and/or</u>	Chromium
Abrasives blasting	Remediation Worker	Emery
Abrasives blasting		Iron III oxide
Abrasives blasting		Lead
Abrasives blasting		Nickel
Abrasives blasting		Silicon carbide
Abrasives blasting		Silicon dioxide, crystalline
Abrasives blasting		Stannic oxide
Abrasives blasting		Stannous oxide
Abrasives blasting		Zircon
Abrasives blasting		Zirconium
Abrasives blasting		Zirconium carbide
Abrasives blasting		Zirconium IV oxide
Abrasives blasting		Zirconium silicate
Use abrasives containing silica or silicon carbide		
Typical Add-on Work Processes - Use or combine with above as appropriate	Typical Labor Categories that may utilize these processes/materials	
Spray and/or pressure washing	Technician, Decontamination <u>or</u>	Alconox perhaps, and others
Ice pellet blasting	Laborer, <u>and/or</u>	Carbon dioxide
Fixation/Coating	Remediation Worker	Fixatives, epoxies, urethanes/paints, etc.
Concrete shaving, chipping, and or scabbling		Cement
Hydrolasing		
Fogging		
Asbestos abatement		Asbestos

		Note: Legacy contaminants in equipment or structures may also apply
<i>Typical Work Processes - Use or combine as appropriate with typical profiles; samples below</i>	<i>Typical Demolition Labor Categories</i>	Note: Legacy contaminants in equipment or structures usually also apply
Demolition	Technician, Demolition	
Structural demolition	Laborer	
Explosive demolition	Remediation Worker	
Drain closures (if deferred from Deactivation/Decommissioning)	<i>Typical Demolition Support Labor Categories</i>	
Rubble crushing/sizing and removal	Operator, Heavy Equipment	
Torch cutting	Operator, Forklift	
Equipment removal (if deferred from Deactivation/Decommissioning)	Truck Driver	
Concrete removal/sawing		
Asbestos abatement		
Construction (all sites)	As appropriate	
<i>Typical Generic Profiles</i>		
Demolition, Rubble sizing and removal, or equipment operation		
	<i>Typical Demolition Labor Categories</i>	
Demolition, Rubble sizing and removal, or equipment operation-Demolition	Technician, Demolition <u>or</u>	Aluminum
Demolition, Rubble sizing and removal, or equipment operation-Demolition	Laborer <u>or</u>	Asbestos
Demolition, Rubble sizing and removal, or equipment operation-Demolition	Remediation Worker	Transite
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Asphalt
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Borosilicate
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Calcium sulfate
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Carbon steel
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Cement
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Chlorodiphenyl
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Galvanized steel
Demolition, Rubble sizing and removal, or equipment operation-Demolition		New world hantaviruses

Demolition, Rubble sizing and removal, or equipment operation-Demolition		Histoplasma capsulatum
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Lead
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Mercury
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Mold
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Silicon dioxide, crystalline
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Wood dust
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Diesel exhaust
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Gasoline
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Gasoline engine exhaust
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Kerosene
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Petroleum mid-distillate
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Hydrogen
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Lead II sulfate
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Lead IV oxide
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Liquefied petroleum gas
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Oxygen
Demolition, Rubble sizing and removal, or equipment operation-Demolition		Sulfuric acid
	Select:	
Blast, drill, remove, or crush rock	<u>Technician, Demolition and/or</u>	
Load or dump dusty rock, stone, or sand	<u>Laborer, and/or</u>	
Use hand-held saw or grinder to remove brick mortar	<u>Remediation Worker</u>	
Work in tick infested area	<u>Operator, Heavy Equipment</u>	
	<u>Operator, Forklift</u>	
	<u>Truck Driver</u>	
Demolition, Rubble sizing and removal, or equipment operation-Heavy Equipment Operation	Operator, Heavy Equipment	Diesel exhaust
Demolition, Rubble sizing and removal, or equipment operation-Heavy Equipment Operation	Operator, Heavy Equipment	Gasoline
Demolition, Rubble sizing and removal, or equipment operation-Heavy Equipment Operation	Operator, Heavy Equipment	Gasoline engine exhaust
Demolition, Rubble sizing and removal, or equipment operation-Heavy Equipment Operation	Operator, Heavy Equipment	Kerosene
Demolition, Rubble sizing and removal, or equipment operation-Heavy Equipment Operation	Operator, Heavy Equipment	Petroleum mid-distillate

Demolition, Rubble sizing and removal, or equipment operation-Heavy Equipment Operation	Operator, Heavy Equipment	Histoplasma capsulatum
Demolition, Rubble sizing and removal, or equipment operation-Heavy Equipment Operation	Operator, Heavy Equipment	New world hantaviruses
Demolition, Rubble sizing and removal, or equipment operation-Truck Driving	Truck Driver	Diesel exhaust
Demolition, Rubble sizing and removal, or equipment operation-Truck Driving	Truck Driver	Engine starting fluids (generic)
Demolition, Rubble sizing and removal, or equipment operation-Truck Driving	Truck Driver	Gasoline
Demolition, Rubble sizing and removal, or equipment operation-Truck Driving	Truck Driver	Gasoline engine exhaust
Demolition, Rubble sizing and removal, or equipment operation-Truck Driving	Truck Driver	Petroleum mid-distillate
Demolition, Rubble sizing and removal, or equipment operation-Truck Driving	Truck Driver	Automotive engine oil (generic)
Demolition, Rubble sizing and removal, or equipment operation-Truck Driving	Truck Driver	Windshield de-icers (generic)
Demolition, Rubble sizing and removal, or equipment operation-Truck Driving	Truck Driver	Windshield washer fluids (generic)
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Diesel exhaust
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Gasoline
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Gasoline engine exhaust
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Hydrogen
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Lead
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Lead II sulfate
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Lead IV oxide
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Liquefied petroleum gas
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Oxygen
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Petroleum mid-distillate
Demolition, Rubble sizing and removal, or equipment operation-Forklift Operation	Operator, Forklift	Sulfuric acid
	Select:	
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting	<u>Technician, Demolition</u>	Acetylene
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting	<u>Welder or</u>	Borosilicate
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting	<u>Remediation Worker</u>	Carbon dioxide

Demolition, Rubble sizing and removal, or equipment operation-Torch cutting	<u>as appropriate</u>	Carbon monoxide
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Carbon steel
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Cement
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Galvanized steel
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Iron
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Iron II oxide
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Iron III oxide
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Lead
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Oxygen
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Synthetic vitreous fibers
Demolition, Rubble sizing and removal, or equipment operation-Torch cutting		Welding fumes
Environmental Restoration or Remediation - Defined as "The process by which the risk caused by hazardous effluents are removed or minimized to a safe or prescribed level by environmental cleanup".		
<u>Typical Work Processes - Use or combine as appropriate</u>	<u>Typical Labor Categories</u>	
Soil characterization and remediation	Operator, Heavy Equipment	
Ground leveling/shaping	Truck Driver	
Fill material transport	Remediation Worker	
Pit excavation and fill, then capping	Potentially: Surveyor, Civil Engineer	
Seeding and mulching		Various straws, coconut fiber, some fertilizers, etc.
Site restoration/revegetation		Wheat straw, select from groundskeeping profile
Surveillance and maintenance/erosion control		
Groundwater sampling and remediation		
Ground leveling/shaping	Operator, Heavy Equipment	Diesel exhaust
Fill material transport	Operator, Heavy Equipment	Gasoline
Pit excavation and fill, then capping	Operator, Heavy Equipment	Gasoline engine exhaust
Seeding and mulching	Operator, Heavy Equipment	Kerosene

	Operator, Heavy Equipment	Petroleum mid-distillate
	Operator, Heavy Equipment	Histoplasma capsulatum
	Operator, Heavy Equipment	New world hantaviruses
Ground leveling/shaping	Truck Driver	Diesel exhaust
Fill material transport	Truck Driver	Engine starting fluids (generic)
Pit excavation and fill, then capping	Truck Driver	Gasoline
Seeding and mulching	Truck Driver	Gasoline engine exhaust
	Truck Driver	Petroleum mid-distillate
	Truck Driver	Automotive engine oil (generic)
	Truck Driver	Windshield de-icers (generic)
	Truck Driver	Windshield washer fluids (generic)
Seeding and mulching		2-Cycle engine exhaust
Site restoration/revegetation		Balanced fertilizer
		Diesel exhaust
		Gasoline
		Gasoline engine exhaust
		Herbicide (generic)
		Insecticides (generic)
		Lawn fertilizer and weed control (generic)
		Petroleum mid-distillate
Blast, drill, remove, or crush rock	Operator, Heavy Equipment and/or	
Load or dump dusty rock, stone, or sand	Truck Driver	
Work in tick infested area	Remediation Worker	
Waste Management - Defined as "The collection, processing, handling, transport, disposition, and monitoring of waste products".		
Waste Products - Defined as "The various materials produced through human activity"		
<u>Typical Work Processes - Use or combine as appropriate</u>	<u>Typical Labor Categories</u>	
Waste sampling activities	Technician, Waste Management	
Waste storage, staging and transport	Technician, Environmental	
Drum/box/container stenciling)	Operator, Forklift	
Disposal may duplicate processes in Environmental Restoration	Truck Driver	
	Operator, Heavy Equipment	

Closure Profile (r1)

Waste storage, staging and transport	Operator, Heavy Equipment	Diesel exhaust
Waste storage, staging and transport	Operator, Heavy Equipment	Gasoline
Waste storage, staging and transport	Operator, Heavy Equipment	Gasoline engine exhaust
Waste storage, staging and transport	Operator, Heavy Equipment	Kerosene
Waste storage, staging and transport	Operator, Heavy Equipment	Petroleum mid-distillate
Waste storage, staging and transport	Operator, Heavy Equipment	Histoplasma capsulatum
Waste storage, staging and transport	Operator, Heavy Equipment	New world hantaviruses
Waste storage, staging and transport	Truck Driver	Diesel exhaust
Waste storage, staging and transport	Truck Driver	Engine starting fluids (generic)
Waste storage, staging and transport	Truck Driver	Gasoline
Waste storage, staging and transport	Truck Driver	Gasoline engine exhaust
Waste storage, staging and transport	Truck Driver	Petroleum mid-distillate
Waste storage, staging and transport	Truck Driver	Automotive engine oil (generic)
Waste storage, staging and transport	Truck Driver	Windshield de-icers (generic)
Waste storage, staging and transport	Truck Driver	Windshield washer fluids (generic)
Waste storage, staging and transport	Operator, Forklift	Diesel exhaust
Waste storage, staging and transport	Operator, Forklift	Gasoline
Waste storage, staging and transport	Operator, Forklift	Gasoline engine exhaust
Waste storage, staging and transport	Operator, Forklift	Hydrogen
Waste storage, staging and transport	Operator, Forklift	Lead
Waste storage, staging and transport	Operator, Forklift	Lead II sulfate
Waste storage, staging and transport	Operator, Forklift	Lead IV oxide
Waste storage, staging and transport	Operator, Forklift	Liquefied petroleum gas
Waste storage, staging and transport	Operator, Forklift	Oxygen
Waste storage, staging and transport	Operator, Forklift	Petroleum mid-distillate
Waste storage, staging and transport	Operator, Forklift	Sulfuric acid
Drum/box/container stenciling	Technician, Waste Management	1,1,1-Trichloroethane
Drum/box/container stenciling	Technician, Waste Management	Aerosol can spray paints (generic)
Drum/box/container stenciling	Technician, Waste Management	Carbon tetrachloride
Drum/box/container stenciling	Technician, Waste Management	General purpose cleaners (generic)
Drum/box/container stenciling	Technician, Waste Management	Methyl ethyl ketone
Drum/box/container stenciling	Technician, Waste Management	Stoddard solvent
Drum/box/container stenciling	Technician, Waste Management	Trichloroethylene
Clean up equipment with solvents	Technician, Waste Management	
Degrease metal	Technician, Waste Management	
Note: If waste disposal is included (example: On-Site burial pits; Entombment and cap) consider the following DDLWP's		
Blast, drill, remove, or crush rock	Operator, Heavy Equipment	
Load or dump dusty rock, stone, or sand	Truck Driver and potentially	

Work in tick infested area	Technician, Waste Management or others	
	Site Support	
Site Support - Defined as "Activity or functions required for successful completion of a process, program, or project".		
Typical Work Processes - Use or combine as appropriate	Typical Labor Categories	Note: Legacy contaminants in equipment or structures usually also apply
Radiological survey activities	Technician, Radiological Control	
Industrial hygiene surveys	Technician, Industrial Hygiene	
QA/QC activities	Technician, Quality Assurance	
Laboratory analyses	Technician, Laboratory	
Radiological survey activities	Technician, Radiological Control	Scintillation fluids (generic)
